Piyush Kumar

MERN STACK DEVELOPER

Results-oriented Developer with expertise in building robust and scalable web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack. Proficient in version control with Git and skilled in database management with MongoDB and Mongoose. Analyzed Business Requirements from various teams and converted them into Software requirements. Deliver the design and development of Full Stack applications, emphasizing proficiency in ReactJS, and Javascript. Collaborated with teams to define system/features strategy and roadmap. Developed high-quality code for Full Stack applications, focusing on backend functionality. My objective is to leverage my proficiency in the Node.js Express Mongodb Mongoose Git React stack to deliver high-quality, efficient, and user-centric applications.

Skill

- JavaScript
- Node JS
- Express
- React
- MongoDB
- Mongoose
- Git
- Socket.IO
- Typescript
- OOPS
- AWS
- Postman

Education Background

Diploma in Computer Engineering
LNCT University (Bhopal)
Grade : Compute Science (7.85 CGPA)

Frontend Development Internship
Board Infinity (Mumbai)
Skills– Html, CSS, Javascript, React.

Backend Development Internship
Function Up Infinity (Bangalore)
Skills–Node, Express, Mongoose, MongoDB

Experience

Intelisync Technology

JAN 2024- JAN 2025

- Worked on Development using React and Nodejs
- Competent in Git
- Wrorked in Real Life Projects
- Powerful Aggregation
- Skilled in backend development for solo and team projects.
- Strong teamwork, task ownership, and timely delivery.
- Understands client needs and adapts solutions.
- Delivers quality work under pressure.

Project

Tech Stack: JavaScript, Node, React, MongoDB, Mongoose

1. ISKEDO (Live Link) - A customer-centric platform enabling users to book local appointments across various categories.

2. EMS (GitHub Link) - Streamlined employee record management to maintain organized, efficient records.

3.Theratap (Live Link) - Provides a telemedicine platform enabling virtual consultations and professional therapy sessions.

4.Snipkitchen (Live Link)- A restaurant ordering system where vendors quote prices for items, and restaurants make orders based on quotes.

5.Botgain (Live Link) - BotGain is a leader in forex and multi-asset trading, offering advanced automated trading solutions and cutting-edge technology.
