Professional Summary

- Backend Developer with expertise in designing and optimizing server-side architectures to deliver scalable and high-performance solutions. Skilled in Node.js, Express.js, MongoDB, PostgreSQL, and MySQL, with a strong focus on developing efficient RESTful APIs and managing complex data workflows. Proficient in implementing caching strategies to enhance application speed and responsiveness, while leveraging modern technologies to ensure reliability and performance. Committed to writing maintainable, clean code and driving seamless integration of backend systems.

Professional Experience

- **Glazer Games Pvt. Ltd.** *Surat*

Software Engineer Feb 2024 - Current

- Designed and optimized server-side architectures to improve operational workflows.
- Engineered efficient APIs and implemented scalable database models.
- Integrated innovative technologies such as Geo Fence and AWS Rekognition.

- **Merchraja Business Solutions Private Limited** *Mohali*

Software Engineer Feb 2023 - Feb 2024

- Developed efficient RESTful APIs and managed complex data operations using PostgreSQL.
- Implemented caching mechanisms with Redis to enhance application responsiveness.
- Delivered robust and real-time user experiences using Node.js and Express.js.

Key Projects

- **Evify Logistic** *(Feb 2024 - Current)*

Backend Developer

– Contributed to designing and optimizing server-side architectures.
– Engineered efficient APIs and implemented scalable database models.
– Integrated Geo Fence for dynamic location tracking and AWS Rekognition for biometric authentication.

- **THRYL** *(Aug 2024 - Current)*

Backend Developer

– Architected and optimized scalable server-side solutions.
– Developed efficient RESTful APIs and managed complex data operations using PostgreSQL.
– Implemented caching mechanisms with Redis to enhance application responsiveness.

- **StayCare** *Oct 2023 - Jan 2024*

Co-Founder And Full-Stack Developer

– Led the development and implementation of end-to-end application features.
– Utilized Node.js, Express.js, MongoDB, and Redis for backend development.
– Developed interactive, user-friendly, and responsive interfaces using ReactJS.
– Designed scalable architectures to ensure seamless operation and growth.

Education

∗ **Babu Banarasi Das Engineering College (BBDEC)** *Lucknow*
Bachelor of Technology in Computer Science and Engineering 2020-2023

∗ **Handia Polytechnic Handia** *Prayagraj*
Diploma in Information Technology 2017-2020

∗ **Azad Hind Inter College Nizamuddin Pura** *Mau*
10th Class from Uttar Pradesh Board 2015-2016

Technical Skills

Programming Languages: JavaScript, TypeScript, HTML5, CSS3
Frameworks and Libraries: ReactJS, NodeJS, ExpressJS, Bootstrap, Tailwind CSS, BunJS
Databases: MySQL, MongoDB, PostgreSQL, Redis, DocumentDB
Tools and Technologies: RESTful APIs, Authentication and Authorization,AWS Face Rekognition, Real-time Systems
