Profile

I have 8+ years of extensive experience in Web design and UI/UX Design. Specialized in Website Design, App Design, Web Page Design, Logo Design, PSD to HTML with rich user experience for over several years. I also have professional experience in the field of Creative Direction including Branding Design, Customer Service, UI/UX Design, and Interactive Management for about several years. Always looking for new challenges that require creative solutions to complex problems while meeting company objectives on time. I am a quick learner who can rapidly absorb new situations and technologies whilst retaining the ability to remain highly focused when working under pressure or meeting deadlines.

Experience

Senior Executive UI UX Designer
Bombay Softwares
Aug 2022 - Present
Ahmedabad, Gujarat, India (Remote)
I led a design team to deliver innovative, user-focused solutions while navigating company challenges. My role showcased my ability to balance creative execution with strategic planning and maintain high-quality outcomes under pressure.

Sr. Web / UI UX designer
Infibrain Technologies LLP
Jun 2020 - Jul 2022
Rajkot, Gujarat, India (On-Site)
As a design team lead, I directed workflows, set design standards, and ensured project alignment with user and business needs. This experience enhanced my leadership, strategic thinking, and mentorship skills.

Web / UI UX Designer
Logistic Infotech PVT LTD
Jul 2019 - May 2020
Rajkot, Gujarat, India (On-Site)
I managed end-to-end design processes, delivering innovative and functional solutions. This role helped me deepen my expertise in interaction design and refine my ability to meet tight deadlines while maintaining high-quality standards.

Web / UI UX Designer
Gtech
Jul 2018 - Jun 2019
Rajkot, Gujarat, India (On-Site)
I focused on creating responsive and accessible designs while aligning solutions with client goals. My work enhanced my proficiency with design tools, problem-solving abilities, and adaptability in fast-paced, on-site environments.

Web / UI UX / Graphics Designer
Rudra Softwares
Jun 2017 - Jun 2018
Rajkot, Gujarat, India (On-Site)
I began my career by designing intuitive interfaces, crafting impactful graphics, and delivering user-friendly web solutions. I developed a strong foundation in project workflows, client interactions, and time management while honing my creativity and technical expertise.

Web / UI UX / Graphics Designer
Freelancing Platforms
Jun 2015 - Jun 2017
Rajkot, Gujarat, India (Remote)
Before joining Rudra Softwares, I worked as a freelance designer, handling diverse projects across web, UI/UX, and graphic design. This experience helped me develop a versatile skill set, manage client relationships, and deliver solutions independently.

Latest Projects

Mobile App Design — www.argot.ai

Argot

As the lead designer, I conceptualized and executed the entire UI/UX for Argot, a real-time translation app that bridges language gaps. Available on both the App Store and Play Store, the app offers users a seamless, intuitive experience. This project highlights my ability to create a functional yet engaging design for a global audience, emphasizing user accessibility and fluid interaction.

Website Design — www.bombaysoftwares.com

Bombay Softwares

I was responsible for both the design and front-end development of the Bombay Softwares website. The result is a polished, responsive platform optimized for performance. Additionally, I integrated interactive SVG animations, adding dynamic visual elements that enhance user engagement. This project reflects my expertise in creating user-friendly designs that not only look great but also improve functionality, providing an immersive and responsive user experience.

Mobile App Design — www.merlinfit.com

Merlin Fitness

For Merlin Fitness, I designed an intuitive mobile app focused on seamless navigation and user engagement. The app, available on both the App Store and Play Store, helps users track their progress, access personalized workouts, and connect with trainers. This project demonstrates my ability to craft a dynamic, user-focused experience for fitness enthusiasts.

Website Design — www.virtu-sign.com

VirtuSign

I designed and developed the VirtuSign website, creating a sleek, user-friendly platform for efficient contract management. The design is modern and professional, focusing on usability while ensuring smooth functionality across devices. This project highlights my expertise in delivering functional, visually appealing websites that enhance user trust and streamline business operations.

Website Design — www.bombaybees.com

Bombay Bees

For Bombay Bees, I created the entire design and front-end development, ensuring a responsive and visually compelling site. The design integrates interactive features that highlight the company’s services and enhance user experience. This project showcases my ability to craft websites that not only look great but also drive engagement and business growth.
