SUMMARY

Proficient MERN Stack Developer skilled in building user-focused, scalable, responsive web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Experience creating seamless user experiences and efficient back-end systems. Passionate about solving complex problems and adopting new technologies to drive innovation.

EDUCATION

Sandip Institute of Technology and Reasearch Center **July 2020 - June 2024**
B.E. in Computer Science, CGPA: 8.10/10 *Nashik, Maharashtra*

Pankaj Higher Secondary College **June 2019 - May 2020**
Higher Secondary College (HSC), 71% *Chopda, Maharashtra*

TECHNICAL SKILLS

Front-end Technologies: HTML5, CSS3, Bootstrap, RWD, JavaScript, jQuery, React.js
Back-end Technologies: Express.js, Node.js, EJS, RESTFul APIs
Database: MongoDB
Libraries/Tools: Redux, Redux Toolkit, Context API, React-Router, Axios, Mongoose, Git, GitHub
Other Skills: Problem solving, Communication skills, Team work, Time management

EXPERIENCE

TechFusion Computer Training Institute LLP **June 2024 – Jan 2025**
MERN Stack Development Intern *Pune, Maharashtra*

- Acquired practical expertise in the **MERN stack**, including **React.js, Node.js, Express.js and MongoDB**, by building dynamic, full-stack web applications, demonstrating proficiency in both front-end and back-end development.
- Developed and deployed a responsive **Christmas Offer Page** as a live project using **HTML5, CSS3, Bootstrap, JavaScript, jQuery, and Owl Carousel**, incorporating a snowfall effect with **Canvas** to enhance user engagement and holiday appeal. Click Here to view live project

PROJECTS

ClothingHub ***HTML5, CSS3, JavaScript, Node.js, MongoDB, Express.js***

- Developed a responsive e-commerce clothing platform with features such as categorized product display, user authentication, shop owner management, and an admin panel for approvals. Utilized **Bootstrap**, **Axios**, **Multer**, **Nodemailer**, and **EJS**, with secure authentication through **bcrypt**. Click Here to view project

BlogSphere ***HTML5, CSS3, JavaScript, React.js, Express.js Node.js, MongoDB***

- A blogging project, built with **React.js** and **React Router**, ensures secure user authentication using **JWT**. It allows users to register, log in and manage blogs (create, update, delete) through a user-friendly interface, powered by **RESTful APIs** for efficient back-end communication. Click Here to view project

TaskTrackr ***HTML5, CSS3, JavaScript, Bootstrap, React.js, React-Router, Redux***

- A task management system with secure login and signup functionality, enabling admins to assign tasks, track progress, and receive feedback from employees for streamlined task management and efficient workflow. Click Here to view project

GeoExplorer ***HTML5, CSS3, JavaScript, Bootstrap, React.js, React-Router***

- A dynamic React web app that enables users to search countries and view key details like borders, currency, languages, and population, with advanced filtering and sorting for an enhanced user experience. Click Here to view project

ACHIEVEMENTS

Final Year Project Ranked in Top 5 **Feb 2024**
Sandip Institute of Technology and Research Center *Nashik, Maharashtra*

CERTIFICATION

MERN Stack Development **Jan 2025**
TechFusion Computer Training Institute LLP *Pune, Maharashtra*
