(Software Developer)

Summary

- React Developer with 2.7+ Years of Experience: Specialized in React.js, React Native, JavaScript, TypeScript, MantineUI, Tailwind, TanstackQuery, Bootstrap, Nodejs, MongoDB, MySql Server.
- API Integration and State Management: Proficient in RESTful APIs, JSON, and Redux, Zustand. Skilled in scalable architecture using SOLID principles and design patterns.
- Full-Stack Proficiency: Hands-on with Node.js, Express.js, MongoDB, and NoSQL databases. Familiar with microservices and serverless architectures.
- DevOps and Testing: Experienced in Git, CI/CD pipelines, Docker, Jest, and cloud platforms (AWS, Azure).
- Performance Optimization: Expertise in optimizing application performance and ensuring efficient load times through advanced techniques and best practices.
- Agile and Collaborative: Strong communicator with a history in Agile environments and customer-facing roles.

Education –

MSC(Computer Sceince) From Savitribai Phule Pune University, Pune.

Technical Skills –

Front-End Technologies	HTML, CSS, JavaScript, TypeScript, Bootstrap, JSON, React.js, Zustand React Native, Redux, NPM, Routing, MantineUI, TanstackQuery etc.
Backend and Databases	SQL, MongoDB, MySql Server, NodeJS.
Development Tools	Git, GitHub, Postman, Swagger UI, VS Code.
Performance Optimization	Webpack, Babel.
Project Management Tools	Agile, JIRA, SDLC, Slack, ClickUp.

Professional Experience : 2.7 years of experience in Sutradhar Project Consultancy Pvt. Ltd (June 2022 to July 2024)

ProAzure Software Solution Pvt. Ltd (Aug 2024 to Till Date)

Project 1: Remote Team Collaboration Tool

Role : Software Developer

Project Details:

Develop a collaboration tool for remote teams, including features like project management, task tracking, video conferencing, and document sharing.

Roles and Responsibilities:

- Architected and Developed Front-End: Designed and implemented a responsive user interface with React enhancing user experience for remote team collaboration.
- Real-Time Communication Features: Integrated WebSocket and RESTful APIs for real-time messaging, notifications, and file-sharing among team members.
- State Management: Used Redux and Zustand for efficient state management, ensuring seamless data flow and maintaining high application performance.
- Authentication and Authorization: Developed secure user authentication and role-based access using Firebase and JWT, safeguarding user data.
- Performance Optimization: Implemented lazy loading, code splitting, and caching to optimize performance, improving load times and user experience.
- Responsive Design: Ensured a seamless experience across all devices by implementing responsive design principles, using MantineUI and Bootstrap, Tailwind.

Project 2: Personal Finance Management App
Role : Software Developer
Project Details:

Create a personal finance management app where users can track their income, expenses, investments, and budget. Include features like financial goal setting, reporting, and analytics.

Roles and Responsibilities:

- Developed Cross-Platform Mobile Application: Used React Native to build a fully responsive personal finance app, ensuring compatibility across both Android and iOS devices.
- Front-End Development: Created user-friendly interfaces with React.js, implementing intuitive navigation and seamless user experiences through efficient routing and state management with Redux.
- Android Studio Integration: Developed and tested the Android version of the app using Android Studio, optimizing the app for performance and smooth functionality on Android devices.
- Responsive Design and Cross-Platform Compatibility: Ensured the app's responsiveness on various screen sizes and devices by applying responsive design principles and leveraging Flexbox and MantineUI.
- Package Management and Dependency Handling: Managed project dependencies and configurations with NPM, ensuring smooth integration and deployment of third-party libraries and tools.
- Testing and Quality Assurance: Conducted thorough testing, including unit, integration, and user acceptance testing, using tools like Jest and React Native Testing Library to ensure app reliability and quality.

Personal Details:

Name : Ganesh Jalindar Bansode
Date of Birth : 05 Jun 2000
Gender : Male
Nationality : Indian
Language Known : English, Marathi, Hindi

Declaration:

I hereby declare that the above-mentioned information is true and correct the best of knowledge and belief.
