PROJECTS

Knowledge and Understanding Framework (KUF)
Client Name: KUF
Role: MERN Developer
Duration: June 2023 - Till Date

Project Description: KUF is an application that allows users to **book events**. Users can **browse through a variety of events** and select the ones they are interested in attending. The application enables users to **view event details**, such as the **date, time, location, and ticket prices**. Users can **purchase tickets directly from the app** and receive them **electronically**. The app also includes features such as **event reminders, social sharing options**, and a **personalized dashboard** to manage **upcoming events**. KUF aims to make **event booking a seamless and hassle-free experience** for users.

Responsibilities:

- **Developing and maintaining the frontend codebase** using technologies such as **React, HTML, CSS, and JavaScript**.
- **Implementing responsive design** to ensure seamless functionality across **desktop and mobile** devices.
- **Optimizing performance and loading speed** of the application.
- Ensuring the **codebase is maintainable and scalable**, adhering to **best practices**.
- **Collaborating with the backend team** to integrate frontend features with **backend APIs**.
- **Testing, debugging**, and ensuring the application functions as intended**.**
- Utilized **JIRA**, For Progress Tracking, Bug Tracking and Project related progress.
- Followed **Agile Methodology** throughout Project.

Technology And Skills Used : React.js, HTML5 & CSS3, JavaScript, Redux, Node.js, Expres.js, MongoDB, Mongoose, Git, GitHub.

CRM Development for Education Institutions
Client Name: Prerna Academy
Role: MERN Developer
Duration: July 2022 – May 2023

Project Description: Developed a **CRM system** for an **online distance education academy** to streamline business processes, enhance communication, and improve the management of educational services. The CRM enabled **efficient handling of student data, course management, and communication workflows**, resulting in improved operational efficiency for the academy.

Responsibilities:

- **Designed and developed** the CRM system's **front-end** using **React.js**, **HTML5**, **CSS3**, and **JavaScript**.
- **Implemented back-end functionality** using **Node.js** and **Express.js** to manage communication between the CRM and the database.
- **Integrated MongoDB** with the application using **Mongoose** to store and retrieve student data and course information efficiently.
- **Optimized workflows** for **student data management**, **course scheduling**, and **communication** between students and the academy.
- Utilized **Git** and **GitHub** for version control, ensuring smooth project management and team collaboration.

Technology And Skills Used : React.js, HTML5 & CSS3, Javascript, Node.js, Expres.js, MongoDb, Mongoose, Git, GitHub.
