nayandhawan.in@gmail.com
Ghaziabad, Uttar Pradesh, India

SUMMARY

Goal-oriented Software Engineer with 3+ years of experience developing web applications using ReactJS. Proven ability to work independently and as part of distributed teams, delivering high-quality, maintainable code. Driven by a passion for continuous improvement and innovation, I am ready to take on new challenges and am fully prepared to relocate for the right opportunity.

EDUCATION

IMS Engineering College

Bachelor of Technology (Information Technology)
2018 – 2022

Silver Line Prestige School

XII Class - (PCM)
2017 – 2018

SKILLS

- **Front-End**: ReactJS, Redux, Context API, HTML5, CSS3, Tailwind, Material UI, Telerik's Kendo UI
- **JavaScript/TypeScript**: JavaScript(ES6+)
- **Bundlers**: Parcel, Webpack, Babel
- **Back-End**: NodeJS, ExpressJS.
- **Development Practices**: Config Driven UI Development, Single Responsibility Principle, Lazy Loading, UI/UX Design Principles, Performance Optimization.
- **Version Control**: Git, GitHub, GitLab
- **Testing**: Unit Testing, Selenium, Cucumber, REST Assured, Jest
- **Project Management**: JIRA, Agile Methodologies

CERTIFICATIONS

- Namaste React and Namaste JS
- **Great Learning**'s MERN Fullstack
- API and Web Service by **Nate Ross**
- NodeJs by **John Smilga**
- JavaScript by **Scott Barrett**

PROFESSIONAL EXPERIENCE

Project Engineer

Wipro (Greater Noida) | September 2022 - January 2025

- **Developed responsive web applications** using ReactJS, optimizing performance and enhancing user experience across multiple devices.
- **Leveraged both Class-Based Components and Functional Components** to create modular and maintainable code structures
- **Conducted comprehensive unit testing** to proactively identify and resolve bugs, ensuring high-quality deliverables within an Agile development framework.
- **Designed and implemented user interfaces** with HTML5 and CSS3, incorporating modern UI libraries like Tailwind and Material UI for a consistent and visually appealing design.
- **Streamlined the UI development** process by integrating grid frameworks and libraries, such as Bootstrap and Telerik's Kendo UI, to maintain cross-platform consistency and reduce development time.

Software Engineer Trainee

Qualitest (QA Infotech, Noida) | January 2022 - July 2022

- **Monitored and reported client-side bugs** within Qualitest, efficiently generating detailed reports using Jenkins for client-side report builders.
- **Actively contributed to Behavior-Driven Development (BDD)** using Selenium, ensuring the delivery of high-quality software products.
- **Managed projects effectively with JIRA,** ensuring clear communication, seamless tracking, and timely completion of tasks.
- **Developed and executed test scripts in Cucumber,** implementing step definitions to align with the features defined in Cucumber.
- **Utilized REST Assured** for comprehensive testing of RESTful API requests and responses, ensuring robust backend functionality.
- **Version-controlled code** using Git and GitHub, maintaining a clean and organized codebase.
