The KPES College, Bhavnagar
Percentage: 62.55%

Master of Computer Application (MCA) -Pursuing
LJ Institute of Computer Application - Ahmedabad
Sem-1 : 7.92 CPI

PROJECT

Shopping Cart (React.JS)
Developed a responsive “Shopping Cart Application” using React.js, featuring dynamic product addition, quantity updates, and total price calculation. Leveraged React state management and component-based architecture to deliver a seamless user experience.

E- stationery (Laravel)
The E-Stationery System is a web application developed using Laravel, designed to manage and streamline the ordering and inventory of office stationery. It allows users to browse and purchase stationery items online, track order statuses, and manage inventory levels.
