WORK EXPERIENCE

Sr. Software Developer

IT Idol Technologies (05/2023 - 12/2024)

- **Lead Client Project Management** System development, optimizing project tracking and task management.
- **Designed scalable React.js components**, enhancing maintainability and performance.
- **Mentored two interns,** guiding them on best coding practices.
- Worked closely with designers and backend developers for seamless UX.
- **Optimized applications with lazy loading, state management, and API improvements.**
- Conducted code reviews and implemented Agile methodologies.

Jr. Software Developer

WebAshlar (07/2021 - 04/2023)

- **Developed user-friendly Japa Health web app using React.js, MUI, SCSS**.
- Implemented Next.js in White Label Media project.
- **Created reusable redux common services for API calls**.
- Built Ikon-mall, an e-commerce mobile app using React Native.

SKILLS

- **React.js || Next.js || React Native || Redux || TypeScript || JavaScript**
- **MUI || Ant Design || Bootstrap || SCSS || CSS**
- **Firebase | Git | Jira || VS Code**
- **Problem Solving || Code Optimization**

PROJECTS

Empower (HRMS)

- **Employee Management –** Maintain a centralized database for employee records, including personal details, job roles, and department assignments.
- **Attendance & Leave Management –** Track employee attendance, working hours, and leave requests with automated approval workflows.
- **Payroll Processing –** Automate salary calculations, tax deductions, and payslip generation with compliance to legal regulations.
- **Performance Evaluation** – Conduct employee appraisals, set goals, track progress, and generate performance reports.
- **Role-Based Access Control** – Implement secure authentication, allowing access to different modules based on user roles.
- **Reports & Analytics –** Generate real-time reports on workforce trends, payroll, and compliance for data-driven decision-making.

Jebelz (e-commerce)

- Secure Authentication with OAuth & social login.
- Real-time Search & advanced filtering.
- Shopping Cart & Wishlist, supporting multiple actions.
- Stripe Payment Integration with multi-payment options.
- Admin Dashboard for product & order management.

TrustIn (KYC/KYB)

- A platform for on boarding and verifying company owners using third-party APIs for risk assessment
- There is role-based access, allowing users to impersonate based on their assigned roles and perform risk assessments.

Other Notable Projects

- **White Label Media** – Advertisement platform (Next.js, MUI, SCSS).
- **Japa Health** – Yoga learning app (React.js & React Native).
- **Keeru9** – Game web app hosting thousands of games.
- **Ikon-mall** – E-commerce mobile app (React Native).

EDUCATION

- **Master of Computer Application (MCA) - Gujarat Vidyapith (2019-2021) || 62.10%**
- **Bachelor of Computer Application (BCA) - CASPS, Chikhli (2016-2019) || 74.80%**
