NEETHU SAJI

Frontend Developer

Bangalore India 7306783758 neethusaji613@gmail.com

SUMMARY

Experienced in React.js with 3 years of success in building robust web applications. Proficient in front-end development, I am a collaborative problem-solver dedicated to delivering high-quality code and staying current with industry trends. Ready to drive success with innovative solutions.

WORK EXPERIENCE

Frontend Developer, Data Template Infotech Private Limited **March 2022 - Present**

- Integrated APIs and third-party services.
- Implemented responsive and user-friendly UI/UX designs.
- Collaborated with cross-functional teams and stakeholders

PROJECTS

Calque - User & Admin Module

Calque streamlines real estate solutions with community lenders. As a React JS Developer on Calque, I designed responsive partner sites, emphasizing admin and user modules. Specializing in authentication & authorization, I enhanced the admin module's security. Contributed to a user-friendly interface, ensuring convenience and certainty. This experience honed my React JS and modular design skills.

IBS - IFlight

As a Front-end Developer on the IFlight project for flight and airport crew management, I collaborated with a cross-functional team to design and develop user-friendly interfaces using AngularJS. My role focused on ensuring a seamless user experience, incorporating UI/UX best practices, and integrating front-end components with the custom IBS framework.

Godrej - Note for Approval (NFA)

Worked on NFA app: setup dev environment, designed UI, Implemented React.js components for enhanced functionality. Build robust backend with Node.js and Express.js for seamless integration and efficient API handling.

P2P Gaming App - Admin Module

Contributed to a P2P gaming app's admin module, using React with Redux. Integrated Highcharts library for interactive chart visualizations and leveraged React DND library for smooth drag-and-drop functionality. The project also encompassed robust token authentication for enhanced security measures.
