PROFILE

Experienced Full Stack Web Developer with a strong background in designing and implementing robust web applications. Proficient in both frontend and backend development, utilizing technologies such as Python, Django, ReactJS, and Redux. Skilled in deploying scalable solutions on AWS and integrating various databases, including MySQL and PostgreSQL. Adept at problem-solving, efficient project management, and delivering high-quality user experiences. Committed to continuous learning and staying updated with industry trends to enhance development practices.

WORK EXPERIENCE

BuyBacKart | Full Stack developer | [LINK]
March 2023- Present

As the Lead Developer for BuyBackart, I played a crucial role in developing a digital art platform by integrating various technologies.

Key Achievements:

- **Backend Development**: Implemented robust backend functionalities using Python and Django, efficiently handling data processing and business logic.
- **Frontend Development**: Crafted an engaging user interface with ReactJS, leveraging Redux for seamless state management, enhancing the user experience for over 550,000 users.
- **Database Integration**: Integrated MySQL as the database solution, ensuring data reliability and scalability.

VECROS (Delhi IIT) - Intern | Backend Developer | [LINK]
Oct 2022- Dec 2022

During my internship at VECROS, I focused on backend development, contributing to serverless architecture.

- **API Development**: Developed serverless Python-based APIs using AWS Lambda, ensuring optimal scalability and cost-effectiveness.
- **API Management**: Configured API Gateway to manage and deploy RESTful APIs seamlessly.
- **Database Utilization**: Leveraged DynamoDB for efficient and scalable data storage.

SKILLS SUMMARY

- **Programming Languages:** Python, JavaScript, TypeScript, Dart
- **Frameworks:** Django, REST API, Reactjs, Redux, Nextjs, Flutter
- **Databases**: MySQL, SQLite, PostgreSQL, NoSQL
- **Cloud Platforms**: AWS, Azure, Firebase
- **Development Tools**: Linux, Redis, Postman, Git
- **Interpersonal Skills:** Problem-Solving, Time Management, Teamwork, Communication

---

EDUCATION

Indira Gandhi National Open University
Lucknow, India

- Master of Computer Application; **June 2019 - Dec 2022**

PROJECTS

BuyBacKart | [LINK]

- Implemented a robust backend with Python and Django for efficient data processing and business logic, integrating AWS RDS MySQL for reliable and scalable database management.
- Crafted an engaging user interface with ReactJS and TypeScript, leveraging Redux for seamless state management and optimal user experience.

BuyBacKart | Flutter Application | [LINK]

- Seamlessly integrated Django APIs into the Flutter app using Provider, ensuring robust backend functionality.
- Deployed MySQL as the database solution, guaranteeing data reliability and scalability.
- Released the application on the App Store and Play Store, optimizing performance and ensuring high availability with a new upload key.

BuyBacKart CRM | [LINK]

- Built a CRM system with Django, integrating frontend and backend seamlessly.
- Features include staff-only login, customer CRM management for device sales, and automated email with PDF CRM details.

SellNservice | [LINK]

- Users can sell smartphones, laptops, and smartwatches with a secure NextAuth-powered authentication system.
- Modern, responsive interface built with Next.js for seamless device evaluation and fair price estimation.
- Scalable PostgreSQL storage and a robust Django backend ensure efficient data handling and secure transactions.

Prajwal Infra | [LINK]

- A comprehensive platform to browse, purchase, and personalize homes with stylish furniture, décor, and home services.
- Real-time updates and notifications via Firebase, with secure transactions powered by Razorpay.
- Smooth user experience ensured through efficient state management using the Provider package.

CERTIFICATES

ReactJS | [CERTIFICATE] **April 2024**

- Mastered fundamental React syntax, proficiently utilizing control flow, state, hooks, and custom hooks.
- Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.
