BACKEND DEVELOPER | NODE.JS | GOLANG | KUBERNETES

Full Stack Developer with 3+ years experience in web and mobile development, DevOps, and cloud technologies. Expertise in building scalable applications using Golang, Node.js, Flutter, and Angular, with strong skills in Kubernetes and Docker deployments.

SKILLS

Backend: Golang, Node.js (TypeScript), RESTful APIs, WebSockets
Frontend: Angular, TypeScript, HTML5, CSS3
Mobile: Flutter, Dart, Swift (Beginner)

Databases: PostgreSQL, MySQL, MongoDB, Redis, Apache Kafka
DevOps: Docker, Kubernetes, CI/CD, Nginx
Security & Authentication: JWT, OAuth2, RBAC
Cloud & Deployments: AWS, Digital Ocean

PROFESSIONAL EXPERIENCE

INDIAN INSTITUTE OF DIGITAL MARKETING (IIDE) – Mumbai **Aug 2023 - Present**
Software Developer
Integrated JWT & OAuth2 authentication, enhancing API security. Guide Angular-based frontend development for LMS and Masterclass portal. Manage Flutter IOS app deployment with Golang backend integration. Developed a centralized authentication service using Golang, PostgreSQL Pub/Sub, Redis, and Apache Kafka, ensuring real-time sync across multiple projects.

INDIAN INSTITUTE OF DIGITAL MARKETING (IIDE) – Mumbai **Aug 2022 - Aug 2023**
Frontend Developer
Focused on Angular development with exposure to full stack technologies. Revamped UI for improved user experience and engagement. Developed complex frontend components and interactive features. Learned and implemented Next.js for server-side rendering.

WordPress Developer Intern **July 2020 - Jan 2022**
INDIAN INSTITUTE OF DIGITAL MARKETING (IIDE) – Mumbai
Gained foundational web development skills while in college. Mastered HTML, CSS, and JavaScript basics. Created responsive landing pages for marketing campaigns. Developed a comprehensive careers portal using WordPress.

EDUCATION & CERTIFICATIONS

B.Tech in Information Technology
Universal College of Engineering (2019-2023)
CGPA: 8.13

JUNIOR COLLEGE (Science)
MITHIBAI COLLEGE (2019)
Percentage: 69%

PROJECTS

- Centralized Auth Service – Singleton auth, PostgreSQL Pub/Sub
- Optimized API Performance – Redis caching, faster queries
- LMS Bookmark: Angular frontend, improved user engagement
- Masterclass Portal: Full stack (Angular, Node.js TypeScript)
- LMS Flutter App: Mobile dev with Golang backend
