WORK EXPERIENCE

Instanpe Digital Systems 2023 - PRESENT

Full Stack Developer

- Developed and maintained web applications using Java and Spring Boot to create scalable, secure, and high-performance backend systems.
- Utilized Spring Boot to develop RESTful APIs and integrate them with front-end applications, improving the user experience and functionality.
- Collaborated in an Agile development environment, ensuring continuous delivery and iteration of features with the support of JIRA and Git for version control.
- Visual tools such as charts, graphs, and tables are essential for analyzing customer data, including transaction volumes, account balances, loan statuses, and more.
- Built reusable components using React hooks and TypeScript.
- Integrated Redux for state management across multi-page applications, optimizing data flow.
- Worked closely with designers to implement pixel-perfect UI/UX designs using Material-UI and Tailwind CSS.
- Wrote unit tests using Jest and Enzyme, achieving high test coverage across key components and improving code stability.

Newton school 2022 - 2023

Internship(Full Stack)

- Full Stack Web Development with problem solving
- Technical Stack Learn- HTML, CSS, JS, Java, React , Angular.js, and Bootstrap.
- Participated in various contests organized by the platform.
- Working on various projects- Portfolio website, E-commerce Website, Food Ordering Website .
