

Paras Juneja

Software Developer

As a **Full Stack Developer** , I design and develop user-friendly web applications that deliver seamless experiences. On the **frontend** , I leverage **HTML, CSS, JavaScript, React.js** , and **Material-UI** to craft responsive, interactive, and visually appealing user interfaces. On the **backend** , I work with **Node.js** to build scalable, efficient server-side applications

BTECH
Chandigarh University

07/2019 - 06/2022 *mohali,india,CGPA(7.14)*

Courses

- Computer science

Integrated Certificate Diploma
Sant longowal institute of Engineering & Technology

07/2016 - 05/2019 *Sangrur,india ,CGPA(6.99)*

SKILLS

HTML | CSS | Javascript | Typescript | React js | Next js | Redux | Redux toolkit | Material-ui | Talwind | Node js | Express | Mongo-db | Git-hub | GraphQL | i18n | redux-thunk

PERSONAL PROJECTS

MemoriesShare: Social Memory Exchange (03/2022 - 07/2022)

- Tech Stack (React js , Node js , MongoDB, Express).
- Ensure safe signup and signin with Node.js backend and proper validation for user accounts.
- Enable users to share memories on a feed, visible to all, with MongoDB database handling data storage.

News & Weather Hub: Personalized, Real-time Insights (04/2023 - 07/2023)

- Tech Stack (React js , Node js , MongoDB, Express).
- Enable real-time updates for news and weather using WebSocket technology, providing users with timely information and enhancing engagement.
- Utilize Node.js and MongoDB with Mongoose to efficiently manage and store news articles and weather data, ensuring scalability and performance.

Crypto Website (06/2024 - 09/2024)

- Tech Stack (React js , Node js , MongoDB, Express).
- Incorporate a global API for real-time cryptocurrency data retrieval.
- Utilize Redux Toolkit for centralized storage and seamless access of crypto data across the application.

ACHIEVEMENTS

Employee of the month (01/2025 - Present)

*Honored with the **Employee of the Month** award for exceptional performance in handling both **frontend and backend** development tasks single-handedly. Successfully designed and developed comprehensive web applications, delivering high-quality solutions that exceeded expectations. Recognized for my ability to balance and manage multiple roles while consistently ensuring timely and efficient project delivery.*
