SUMMARY

Dedicated professional with over 2.5 + year of hands-on experience in MERN technologies, eager to secure a challenging position where I can leverage my expertise in crafting responsive and user-friendly web applications. Proficient in modern Typescript and well-versed in the React.js library, I am committed to delivering high-quality solutions that enhance user experiences and meet client objectives

SKILL

ReactJS, JavaScript, TypeScript, RESTful API, Html5, GIT, CSS , JIRA, Node.js, express.js, MongoDB

WORK EXPERIENCE

Auditflo | Pune Maharashtra

React Developer | 04/2024 - Present

Project Summary:

- The project involved building a responsive web dashboard application designed to provide a seamless and user-friendly interface for company audits. It leveraged modern web technologies and best practices to ensure optimal performance, cross-browser compatibility, and maintainability.

Key Features:

- React & Tailwind CSS: Created a dynamic, responsive UI with **Reacts** reusable components and **Tailwind's** utility-first styling for rapid and consistent development.
- State Management: Utilized **Redux** for consistent and predictable state management.
- Performance Optimization: Applied **debouncing** and **throttling** for efficient data handling, reducing server load and enhancing performance.
- Debugging: Proactively debugged to minimize bugs, reducing crashes and improving stability.
- React Unit Testing: Used **Jest** for thorough unit testing of React components, ensuring reliability and reducing potential errors.

Reflexion.ai | Pune Maharashtra

React Developer | 08/2022 - Present

Project Summary:

- A dynamic desktop application built using the **MERN** stack, enabling users to search, generate, and edit video highlights effortlessly.

Key Features:

- Built a React-based UI for seamless video browsing, subtitle generation, and content moderation.
- Implemented AI-driven explicit content detection with automated blurring and clipping.
- Enabled multi-language subtitle generation (90+ languages) with high accuracy.
- Developed the Reflexion Subtitle Editor for easy review and real-time editing.
- Integrated EDL export and direct social media publishing for professional workflows.
- **Node.js** and **Express.js** Developed a RESTful API to bridge the front-end and back-end, efficiently managing data requests and responses.
- Performance Optimization: Applied debouncing and throttling for efficient data handling, reducing server load and enhancing performance.
- Debugging: Proactively debugged to minimize bugs, reducing crashes and improving stability.
- React Unit Testing: Used Jest for thorough unit testing of React components, ensuring reliability and reducing potential errors.
