PARTH VIRANI

Full Stack Developer

SUMMARY

Around 3.5+ years of experience in software engineering and web development
Proficient in creating responsive user interfaces and optimizing performance.
Strong ability to define project requirements, estimate timelines, and manage projects efficiently.

KEY SKILLS

React Js | Next Js | Javascript | Typescript | HTML & CSS | Node js

PROFESSIONAL EXPERIENCE

N R CREW

Jan '22 - Present

Software Developer

Gujarat, Ahmedabad

UI Components Designing & Application Interface Coding

- Identified web-based user interactions and developed highly-responsive user interface components via React concepts.
- Translated designs & wireframes into high-quality code and wrote application interface code via JavaScript following React.js workflows.

Application logic

- Developed calculations for user-selected solar panel and selected products like how much profit they will have in future with the time frame, amortization time, investment building cost, self-supply, yearly and monthly consumption with profit and loss, and charts for the easy user interface.

Performance Optimization & Features Development

- Monitored and improved front-end performance by 25% and documented application changes & worked on updates.
- Implemented Lazy loading cloud cdn for images, caching, and reduced loading time.
- Implemented React performance hooks (`useMemo` and **useCallback**) to enhance efficiency.

Trreta Techlabs

Aug '21 - Dec '21

Frontend Developer

Gujarat, Ahmedabad

Webpage Designing & Optimization

- Meeting with the development team to discuss user interface ideas & applications and reviewing application requirements & interface designs.
- Worked on tasks assigned to me on a daily basis.
- Documenting application changes and developing updates.
- Real-time updates of data using firebase. Using Material UI for layout and design.
- Completely responsive web page designs.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React Js, Redux, Next Js, SASS, Tailwind
Bakend: Node Js, Express Js
Database: MongoDB
OS: Windows, Linux, Mac
Soft Skills: Time Management, Problem Solving, Communication

KEY PROJECTS

Leapscholar

Description:

- The Leap Global Education Initiative is a comprehensive program designed to support aspiring leaders from India in their pursuit of studying at renowned international institutions.
- With a dedicated team of global study experts and experienced student mentors, the initiative aims to provide guidance and assistance at every stage of the education abroad process

Roles and Responsibilities:

- Coordinate and Implement features provided by design team

- Handling API calls
- Responsive web design with Grid architecture

Technologies used:

- React js, Nextjs, Javascript, Typescript, Tailwind, Storybook

Easy Accounting App | Easy App

- Developed frontend with React.js, Fastify.js (Node.js) as a backend and MongoDB as a database. It's also a PWA ready application, can be installed on mobile and desktop.
- Easy Accounting – An accounting app for Petrol pumps and Gas Stations to keep the record of daily Credit/Debit transactions and generate financial reports. It's a multi-tenant application with role-based access for Operator and Admin.

Demo Credentials: https://cng.a2zhisab.com/login => Username/Password: demouser

InvestTech: Investment platform

- It's online end-to-end solution for Start-ups to create deal they wanted, to raise funds and Investor to invest in those deals.
- It has many different user role such as deal advisor and service organizer etc to advice start-ups to achieve amazing deals.
- Key responsibility: Coordinate and Implement features provided by design team and finalize the structure and state management, improve site performance
- Review code standards and follow latest coding practices

Technologies used:

- React, Redux, ANT design framework

Splurge - Food Application

- Splurge is a personalized restaurant discovery app that helps users find the perfect places to eat instantly depending on their mood & taste, helping them to discover new cuisines & places more frequently with an elevated dining experience.

Technologies used:

- React Js, Node JS, Express Js, Mongodb, ANT design

EDUCATION

B. Tech. in Computer Science Jun '18 - May '22

Institute of Advanced Research, Gandhinagar (University) Gujarat, India

8.21 CGPA

LANGUAGES

English, Hindi and Gujarati
