Employment History

Tata Consultancy Services

Hyderabad, Telangana (2021 - Present)

Projects

Ongoing project:

Project#1: Billing History

Client: National Information Solutions Cooperative (NISC).

Description: Allow a user to view the detailed breakdown for a particular billing history record**.** Currently, users can only view summary-level details of

a particular billing history record in the existing Billing History screen in IVUE Connect. Members have requested to have the ability to view the provider and agreement level breakdown of the charges and credits, billable equipment, and taxes from which the bill was calculated. This information can assist a CSR or billing coordinator with researching or troubleshooting various issues, including bill complaints.

Technologies used: HTML, SCSS, React, Node JS, NextJS, MySQL, Typescript, JavaScript, JEST, CYPRESS

Education

Annamacharya institute of technology and sciences (2017 – 2021)
