WORK EXPERIENCE

Nov 2020 - Present

Web Developer – SBV Technologies Private Limited

Currently Working SBV Technologies Private Limited, Chennai as Web developer.

PROJECTS

March 2022 - Present

UrSecondLot-Admin :

- **Car Listing and Inspection:** Admin are responsible for inspecting cars and inputting all relevant details into the system, ensuring accurate and comprehensive listings.
- **Bidding Management:** Admin set the minimum starting bid for each car, which serves as the base amount for buyers to start bidding.
- **Counter Bid Feature:** Admin, alongside sellers, can propose counter bids to buyers. Buyers can then either accept these offers or submit their own counter offers, enabling continued negotiation.
- **Buyer-Seller Management:** Admin manage both buyer and seller information, ensuring all details are kept confidential and secure.
- **Sale and Delivery Management:** Once a bid is accepted, admin oversee the car delivery process directly to the buyer, and they generate and provide the bill of sale to complete the transaction.
- **State and Payment Integration:** Admin utilize secure payment processing and real-time state management through Redux to ensure smooth transactions and live updates.

Dec 2021 - Nov 2022

UrSecondLot-Seller :

- **Car Listing Interface:** Developed a user-friendly UI allowing sellers to input essential details such as make, model, year, and minimum acceptable price for listing cars.
- **Bidding Management System:** Implemented a system where sellers can review incoming bids, with the ability to accept, reject, or provide counter bids, enabling dynamic negotiation.
- **Counter Bid Interaction:** Enabled sellers to send counter offers to buyers, facilitating smoother negotiation and more flexible interactions.
- **State Management with Redux:** Utilized Redux for effective state management, ensuring real-time updates on bid activity, counter offers, and negotiations.
- **Secure Payment Integration:** Integrated a secure payment processing system to streamline transactions once a bid is accepted.

Nov 2020 - Dec 2021

UrSecondLot-Buyer :

- **Responsive Web Interface:** Developed a responsive interface using HTML, CSS, and JavaScript, allowing buyers to browse and place bids on car listings.
- **Counter Bid Feature:** Implemented a feature enabling sellers or admin to propose counter offers, enhancing negotiation options for buyers.
- **Bid Negotiation:** Enabled buyers to accept counter bids or submit their own counter offers, fostering dynamic negotiation interactions.
- **State Management with Redux:** Utilized Redux for efficient state management, ensuring real-time updates on bid statuses and counteroffer negotiations.
- **Secure Payment Integration:** Integrated secure payment processing to ensure smooth and secure transactions once bids are accepted.
