SUMMARY

Front-End Developer with 1+ years of experience in HTML, CSS, JavaScript, React, and Core Java. Skilled in creating responsive, user-friendly interfaces with a passion for continuous learning and innovation

EXPERIENCE

Web Developer (Frontend Developer & Designer) Oct '24 — Present
BRT Multi Software LLP Greater Noida, India

- Designed and developed responsive websites using HTML, CSS, JavaScript, React, and Bootstrap.
- Created and managed website designs directly through cPanel for seamless deployment.
- Collaborated with clients to gather requirements and deliver customized web solutions.
- Conducted software testing to ensure quality, performance, and functionality.

Front End Developer Mar '24 — Jun '24
Diitec Innovations Private Limited Bahraich, India

- At Diitec Innovation Private Limited, I hold the position of Frontend Developer, where I focus on creating engaging and responsive company landing pages. My key responsibilities include:
  - **Developing and maintaining scalable web applications:** Ensuring the front-end is user-friendly and responsive using React, Material UI, and Ant Design.
  - **Building dynamic user interfaces:** Utilizing HTML, CSS, JavaScript, and Boxicon to create visually appealing and interactive landing pages.

Website Developer Mar '23 — Present
SinghJi Tech Lucknow

- As a Freelance Frontend Developer at Singhji Tech Company, a startup, I focus on:
  - **Designing and creating landing pages:** Utilizing HTML, CSS, and JavaScript to develop responsive and visually appealing web pages.
  - **Handling projects and client meetings:** Managing projects from inception to completion and ensuring client satisfaction through regular communication.

SKILLS

Primary Skills HTML, CSS, JavaScript, ReactJS
Secondary Skills Responsive Design, cPanel, Direct Client Interaction, Software Testing, Frontend Design, Bootstrap, Core Java

PROJECTS

MeraCSP Link

- Built dynamic and responsive components for a client project, focusing on performance and scalability using HTML, CSS, JavaScript, React, Ant-Design and MaterialUI .

SinghJi Tech Company Website Link

- Contributed to the development of SinghJi Tech official website, ensuring a professional and responsive design with HTML, CSS, JavaScript , React and MaterialUI.
