SUMMARY

Experienced web developer with 3 years of hands-on expertise in creating responsive and visually appealing user interfaces. Skilled in solving complex problems and keeping up to date with the latest web development tools and technologies. A collaborative approach and dedication to enhancing user experiences have been essential in contributing to various projects.

EXPERIENCE

Associate Software Engineer

Decimal Technology Private Limited

2022 - Present

A technology company focused on web development and software solutions.

- Collaborated on the TATAAIA project with PWC Global, streamlining the policy-buying process by designing intuitive front-end features, reducing user processing time by 30.
- Contributed to the development of a website-building platform, allowing users to create their own websites and focused on feature enhancements, API integration, handling dynamic data, and resolving critical bugs.
- Added functionality enabling users to create interactive UI elements (e.g., buttons, inputs, dropdowns) with customizable attributes such as height and width.
- Analyzed product requirements and worked with stakeholders to deliver high-impact features, boosting overall user satisfaction.
- Implemented a JSON editor for rich text formatting, a code editor for CSS and JavaScript validation, and the Monaco editor for an enhanced coding experience.
- Implemented drag-and-drop functionality with react-beautiful-dnd and integrated data visualization using Chart.js, which significantly improved user efficiency.
- Resolved user-reported issues and implemented key features, enhancing product stability and functionality.
- Developed responsive websites using React.js, ensuring seamless API integration for dynamic content rendering and real-time updates.
- Designed adaptive interfaces compatible across multiple devices and screen sizes, improving user experience.

EDUCATION

B.Tech

Guru Jambheshwar University of Science and Technology

08/2018 - 06/2022

KEY ACHIEVEMENTS

Outstanding Contributions

Received kudos from the company for outstanding contributions and problem-solving abilities.

HackerRank Recognition

Earned a 2nd-star badge in Problem Solving on HackerRank, demonstrating strong analytical and coding skills.

SKILLS

React.js CSS3 HTML5 JavaScript Angular Redux Tailwind CSS BootStrap

PROJECTS

Portfolio Website Using React.js

- A personal portfolio website highlighting skills and projects.
- Developed a personal portfolio website to showcase skills, experience, and projects.
- Designed a visually appealing, fully responsive interface with an interactive contact form.
- Utilized React.js and Tailwind CSS to ensure modern and efficient UI development.

Netflix Clone with User Authentication & GPT-Enhanced Search

- A clone of Netflix with user authentication and enhanced search functionality.
- Implemented authentication to manage user access dynamically.
- Efficiently handled movie data using Redux and integrated GPT-powered search for real-time filtering.

Task Management System with Drag-and-Drop Functionality

A project for managing tasks effectively with a user-friendly interface.

- Developed a task management system with features for creating, editing, and deleting tasks.
- Implemented drag-and-drop functionality to enable seamless task movement across sections.
- Optimized UI for responsiveness and smooth interactions.
