MEGHASHREE PAWAR

UI Developer

9730518521 megha.pawar2607@gmail.com

SUMMARY

I am a UI Developer with 1.6 years of experience at UJR Corporate Solutions, specializing in web application development. I hold a B.E. in Computer Science and Engineering and have strong expertise in JavaScript, React, and both frontend and backend technologies. Passionate about building user-friendly interfaces, I am committed to continuous learning and growth in software engineering.

EXPERIENCE

Full Time

UJR Corporate Solutions Pvt Ltd.

09/2023 - Present Hyderābād, India

Roles And Responsibilities :

- Requirement Analysis and Gathering: Collaborated with stakeholders to gather, analyze, and verify requirements for UI functionalities in React applications, ensuring each feature aligns with the client's needs and business goals.
- UI Development: Developed interactive and responsive user interfaces using React, JavaScript, and related technologies, focusing on both user experience and performance.
- Unit Testing: Wrote comprehensive unit test cases for React components and UI functionalities to ensure code quality, coverage, and functionality.
- Client Interaction: Conducted design and progress presentations for clients, incorporating feedback to enhance UI performance and functionality in React applications.
- Demo and Documentation: Presented demos to external teams and created user guides and documentation for ease of use and understanding of the React-based UI system.
- Defect Management and Support: Debugged, troubleshot, and fixed defects reported during UAT (User Acceptance Testing) and production phases, ensuring smooth and reliable performance of React applications.

React.js HTML5 CSS3 JavaScript(ES6+) Redux Github Git Golang Jenkins JIRA MongoDB MySQL Postgres Postman React Hooks Swagger VS Code Webpack Babel C++

PROJECTS

Stock Broker Application

Developed a Dynamic Stock Trading Application

- Developed a dynamic and user-friendly Stock Trading Application using React.js, ensuring seamless user interactions and real-time market updates.
- Designed and implemented interactive dashboards with real-time stock price tracking, advanced search functionality, and intuitive trading workflows.
- Utilized React.js with Redux/Context API for efficient state management, optimizing performance and responsiveness.
- Focused on clean UI design with CSS3 and SCSS, enhancing usability and accessibility.
- Maintained structured and well-documented code, leveraging Postman and Swagger for API testing and documentation.

KEY ACHIEVEMENTS

Finalist in Hackathon

Finalist in Hackathon organized by our college

Hosted Workshops

Hosted workshops on programming languages in our college

COURSES

Full Stack Java Development – Linkcode Technologies Pvt. Ltd.

React.js Fundamentals from Udemy
