WORK EXPERIENCE

Software Developer
Grazitti Interactive

03/2024 – present

Project – Searchunify(Worked on a Product)

Achievements/Tasks

- Full Stack Developer with extensive experience in **React**, Angular, **Salesforce LWC**, **Docker**, and Node.js, delivering robust and scalable web applications.
- I have integrated React application with **salesforce**. This results in unified codebase for multiple platforms.
- I have done setup **Sonarqube** and jest for existing codebase which would help in unit testing and better code quality.
- I have worked on resolving security issues in LWC codebase, which helped in understanding the security parameters.
- Worked on **WCAG** compatibility of existing frontend components.
