WORK EXPERIENCE

Digital Specialist Engineer, Infosys — Jul 2022 - Feb 2025

- Led the development of key e-commerce features (homepage, order status, "Add to Cart"), improving user engagement by 15% through seamless REST API integrations.
- Developed email notifications, ensuring 100% real-time customer updates, and implemented login, signup, and wishlist features, increasing returning customer visits by 20%.
- Upgraded Angular project from v12 to v17, enhancing performance by 20% and reducing load times by 30%.
- Built secure, responsive front-end components with React.js and Redux, improving user interaction by 25% and ensuring HIPAA compliance with Node.js and Express.js APIs.
- Designed mobile-first interfaces, boosting mobile user retention by 18%.

Oracle Cloud Intern, PWC — Mar 2022 - Jul 2022

- Gained comprehensive hands-on experience with Oracle Fusion, a leading ERP platform widely used for integrating business processes.
- Leveraged data analysis tools within Oracle Fusion to provide insights that enhanced decision-making and informed key business strategies.
- Collaborated closely with cross-functional teams, including operations, finance, and IT, to develop and implement tailored solutions that streamlined workflows, optimized processes.

PROJECTS

Travelers — Apr 2024 - Present

Developed interactive and responsive front-end components using React.js, incorporating Redux for state management and React hooks for performance optimization. Integrated secure Node.js and Express.js APIs for smooth back-end communication. Managed sensitive customer data with MongoDB, ensuring HIPAA compliance and data security. Created mobile-first designs to improve accessibility across devices for an insurance management platform.

Campaigns — Jul 2023 - Mar 2024

Led the development and optimization of scalable web applications using Angular 8+, focusing on performance improvements. Successfully upgraded the Angular project from version 12 to 17, maintaining functionality and performance. Achieved a 20% front-end performance boost through code optimization and implemented middleware architecture to enhance app performance and user experience.

Ecommerce Platform — Jul 2022 - Jun 2023

Spearheaded the design and implementation of key features such as homepage, order status page, "Add to Cart", login, signup, wish-list, and email notifications, significantly enhancing user experience and customer engagement. Utilized REST APIs to ensure seamless integration and real-time updates for customers. Integrated a feedback component to improve customer satisfaction and streamline transaction processes.

TECHNICAL SKILLS

Technologies: HTML, CSS, Javascript, Typescript, Java
Frameworks: React, Redux, Bootstrap, Styled Components, Tailwind CSS, NodeJS, Angular, SpringBoot
Database: Mysql, Postgres, MongoDB
DevOps Tools: Linux, Docker, Kubernetes, Jenkins
Developer Tools: VSCode, Eclipse, IntelliJ, Git, Eclipse

ACHIEVEMENTS

- Participated in the “Red HAT Aptitude Test” and secured 2nd rank in India

EDUCATION

Haldia Institute of Technology — **2022**
BTech (Hons) in Electronics and Communication Engg
8.86 CGPA
