PROFILE

Full Stack Developer (MERN) at Trueline Solution Pvt. Ltd. skilled in React, Node.js, Express.js, MongoDB, and REST API development. Contributed to the development and maintenance of 365 CRM by building new features, fixing bugs, and improving application performance. Strong problem-solving abilities, collaborative teamwork mindset, and a passion for continuous learning and professional growth.

EXPERIENCE

Full Stack Developer — MERN | Feb 2025 - Present

Trueline Solution Pvt. Ltd., Surat

- Full-stack development on CRM product.
- React + Node.js + MongoDB + REST APIs.
- Feature development, bug fixing, API integration.
- Authentication, CRUD modules, and performance improvements.

PROJECTS

365 CRM (Company Project) [Link :- https://www.365crm.io/](https://www.365crm.io/)

Overview :-

- Tech Stack: React.js, CRACO, JavaScript, Node.js, Express.js, SQL etc.
- Developed and enhanced multiple modules of a business-centric CRM system used for managing leads, clients, service operations, and internal workflows. Worked across both frontend and backend, building scalable APIs, integrating UI components, fixing bugs, improving performance, and optimizing user flow across the platform. Implemented role-based authentication, reusable components, form validations, API integrations, and database optimizations. Improved several existing modules and collaborated with senior developers to maintain code quality, performance, and security.

Social Media (Insta Clone) [Link :- https://social-media-app-sam.netlify.app](https://social-media-app-sam.netlify.app)

- Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Socket.io, etc.
- Built a full-stack social media web application replicating core Instagram features, including user authentication, image uploads, post creation, likes, comments, follow/unfollow, real-time communication using Socket.io, and a personalized feed. Designed scalable RESTful APIs, implemented secure authentication with JWT & bcrypt, and integrated cloud image storage with Cloudinary and many more.

Chat-App (Real-Time) [Link :- https://realtime-chat-app-sam.netlify.app](https://realtime-chat-app-sam.netlify.app)

- Tech Stack: MongoDB, Express.js, React.js, Node.js, Socket.io, Redux Toolkit, etc.
- Developed a real-time chat application using the MERN stack and Socket.io for instant bi-directional communication. Implemented features like user authentication, one-to-one messaging, online user status, real-time message delivery, and chat history persistence. structured the app for scalability and performance.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 - 2025

M.K. Institute of Computer Studies, Gujarat

CGPA: 7.8/10
