PROFILE SUMMARY

- Over **3 year 1 months** of experience in developing and implementing **scalable full-stack web applications** using **React.js, Node.js, and Express.js**.
- Hands-on experience with **MongoDB** and active involvement across the entire **SDLC**, including requirement gathering, application design, integration, performance tuning, and client support.

PROFESSIONAL EXPERIENCE

Wipro, Hyderabad

Associate

2025 May - present

NCORE Technology PVT LTD, Bangalore

Associate Developer

2023 Jan- 2025 Apr

PROJECTS

Medical Inventory s Stock Management System

- Worked on front-end development for a company website using React.js and Tailwind CSS.
- Designed a responsive UI for mobile, tablet, and laptop views.
- Worked on state management (Redux) and API integrations for dynamic data handling.
- Improved website performance using lazy loading and best coding practices.

Tracker Application

- Developed a Tracker tool using MUI, React.js, Node.js, Express.js, and MongoDB, enabling team creation, project/task management, workload tracking, and bug tracking.
- Implemented user functionalities such as user invitations, logging hours, leader task updates, role-based management, and secure navigation with JWT-based authentication, along with features like login and password reset.
- Managed AWS production server operations by automating start, stop, and deployment processes, ensuring efficient and reliable code deployment.

SKILLS

Programming Languages: JavaScript

Frontend: React.js, Redux Toolkit (RTK), MUI, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB

Version Control: Git, GitHub, GitLab

IDEs s Build Tools: VS code, Visual Studio, Postman

EDUCATION

G. Pulla Reddy Engineering College, Kurnool	2020-2023
Bachelor of Technology, Computer Science Engineering	
Government Polytechnic Pillaripattu Nesanu, Puttur	2016-2020
Diploma in Computer Engineering	

CERTIFICATIONS

- React - Great Learning Academy.
- Nodejs Developer from Coursera.
