Summary

Frontend Developer with 4+ years of experience building scalable, high-performance web applications using React.js, Next.js, TypeScript, JavaScript, and Redux Toolkit. Strong expertise in designing responsive user interfaces, component-based architecture, state management, and performance optimization.

Experienced in working across Agile environments, collaborating with cross-functional teams, and delivering end-to-end features from development to deployment. Proficient in integrating RESTful APIs and working with backend systems, with exposure to backend development concepts and database-driven applications, enabling contribution to full-stack development tasks.

Experience

Khelo Tech and Strategy Pvt. Ltd.

Jun 2025 – Present

Frontend Developer

- Led frontend architecture and development for scalable enterprise web applications using React.js, Next.js, TypeScript, and Redux Toolkit.
- Designed reusable component libraries to improve maintainability and development efficiency.
- Improved application performance through optimization techniques such as code splitting, lazy loading, and rendering improvements.
- Collaborated with product managers, designers, and backend engineers to deliver business-critical features.
- Mentored junior developers and enforced coding standards, best practices, and code quality through reviews.

WebReinvent Technologies Pvt. Ltd.

Jul 2024 – May 2025

Software Engineer

- Built and maintained responsive, modular UI components, owning key features end-to-end from design to deployment with a focus on quality and performance.
- Collaborated with cross-functional teams in Agile environments, optimizing user experience and ensuring timely delivery of features.

Panorama Software Solutions Pvt. Ltd.

May 2022 – Jul 2024

Software Engineer

- Implemented responsive UI components based on design specifications, collaborating with designers and backend teams to integrate APIs and ensure smooth data flow.
- Maintained application stability through testing, bug fixes, and adherence to code quality standards while contributing to Agile development processes.

Projects

Communication Hub | *React.js, TanStack Query, Redux Toolkit, TypeScript, Tailwind CSS, Next.js*

[Hosted Version](#)

- Developed a Communication Hub to enhance internal collaboration and knowledge sharing..
- Implemented a real-time chat system for one-on-one and group conversations.
- Built a forum module inspired by Reddit for topic-based discussions and QA.
- Enabled features like threaded discussions, comments, and voting to boost engagement.

Inventory Management System | *React.js, Redux Toolkit, TypeScript, Tailwind CSS, Next.js*

[Hosted Version](#)

- Developed a centralized inventory management system to track and manage sports and non-sports equipment across multiple locations, providing real-time visibility into stock levels.
- Implemented role-based access, digital requisition workflows, allocation tracking, and barcode-based inventory movement for improved accountability and operational efficiency.
- Integrated APIs for automated stock updates, reporting dashboards, and multi-location tracking, enabling better planning and decision-making for state-level sports departments.

Toolstation | *Nuxt.js, Pinia, Tailwind CSS, TypeScript, Builder.io*

[Hosted Version](#)

- Toolstation is an e-commerce platform delivering a smooth shopping experience for tools and building supplies. Implemented dynamic product listings and state management to update inventory in real-time and optimize performance across devices.
- Built the **Atomic Design System** and integrated new features with backend APIs for scalable architecture.
- Integrated **Builder.io** for efficient content management and faster updates.

Technical Skills

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Nuxt.js

Backend Exposure: Node.js, Express.js, REST APIs, Authentication, API Integration, Database Integration

State Management Data Fetching / UI Libraries: Redux Toolkit, TanStack Query, Pinia Store, Storybook, Material UI, Tailwind CSS, AgGrid

UI Libraries: Tailwind CSS, Material UI, Storybook, AgGrid

Version Control: Git, GitHub, GitLab, Bitbucket

Tools & CMS: Jira, Confluence, Kanban, Zoho, Builder.io, Twilio

Domain Experience: Healthcare, CRM

Education

Lovely Professional University

2022-2024

Master of Computer Applications

CGPA: 7.3

Guru Gobind Singh Indraprastha University

2018-2021

Bachelor of Computer Applications

CGPA: 8.2
