PROFESSIONAL EXPERIENCE

Founder & Web Developer 2023 – 2026

- Self-Owned Web Development Company | Surat
- Managed and operated a web development company for 2 years.
 - Developed 20+ WordPress websites for different businesses.
 - Created responsive business websites using Elementor and custom code.
 - Handled website customization, UI improvements, and client requirements.
 - Worked directly with clients and managed complete website projects independently

WhatsApp CRM & Automation Project

- Developed a complete WhatsApp automation and CRM system using PHP, HTML, CSS, JavaScript, MySQL, and n8n.
- Created features like bulk messaging, CSV import/export, auto-reply system, campaign management, and label-wise contact management.
- Successfully sold the system to clients and received positive feedback.

PROJECTS

Worked on 20+ projects including real estate websites, business websites, ecommerce websites, landing pages, and WhatsApp CRM automation systems for different clients and businesses.
