Summary

Full Stack Developer with 3.5+ years of experience at Capgemini, building enterprise-scale serverless applications on AWS for clients like Daikin. Skilled in ReactJS, GraphQL, Node.js, and cloud technologies including AppSync, Lambda, and DynamoDB. Delivered high-performance applications serving 10K+ users, improving API response times by ~30% and achieving 99.9% uptime via optimized cloud architecture and CI/CD pipelines.

Skills

Frontend: ReactJS, TypeScript (basic), Next.js (basic), Apollo Client, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, AWS Lambda, GraphQL, REST APIs, Microservices Architecture, AWS Secrets Manager

Cloud/DevOps: AWS Amplify, AppSync, API Gateway, CloudWatch, IAM, SES, SNS, EC2, Terraform, Docker (basic), CI/CD

Authentication: Azure Active Directory (MSAL.js), AWS Cognito, JWT

Database: DynamoDB, MySQL, SQL (Basic)

Tools: Git, Bitbucket, Jest (basic), Agile/Scrum

Experience

Capgemini Technology Services India Limited

Mumbai, India

Full Stack Web Developer

Jul 2022 – Present

- Developed and deployed 3+ serverless web applications using ReactJS and GraphQL, improving API response times by ~30–35%.
- Designed GraphQL schemas using AWS AppSync, reducing manual DB configuration effort by ~40%.
- Built backend services with AWS Lambda (Node.js) handling 10K+ daily user requests.
- Implemented CI/CD pipelines (Amplify + Bitbucket), reducing deployment time by ~50%.
- Integrated Azure AD (MSAL.js) authentication, improving login success rate by ~25%.
- Configured IAM roles and policies ensuring secure access control.
- Developed email workflows (SES) and alert systems (SNS) improving incident response time by ~30%.
- Used CloudWatch monitoring and alerts, reducing production issues by ~20%.
- Led team of 2 developers, mentoring and improving delivery efficiency by ~25%.

SRcomSoft Pvt. Ltd. (Vendor for Paytm)

Jabalpur, India

Risk Associate (Career Transition Role)

Oct 2020 – Jun 2022

- Conducted 100+ merchant risk assessments ensuring compliance with Paytm policies.
- Evaluated merchant platforms and reduced onboarding risks through structured analysis.
- Collaborated with cross-functional teams to enable smooth merchant integrations.

Projects

Daikin India – Enterprise Web Platform:

- Led end-to-end development of enterprise web platform using ReactJS and AWS serverless architecture.
- Built backend using Lambda, GraphQL (AppSync), REST APIs supporting 10K+ users.
- Reduced deployment time by ~50% with CI/CD pipelines (Amplify + Bitbucket).
- Achieved 99.9% uptime via CloudWatch monitoring and alerting.
- Integrated Azure AD & AWS Cognito authentication for secure access.
- Managed development with a 3-member team, ensuring timely delivery.

e-Learning Management System (eLMS) – Full Stack Application:

- Developed a role-based full stack platform using ReactJS, Node.js, and MySQL for Students, Mentors, and

Admins.

- Implemented RBAC-based dashboards, ensuring personalized and secure user experiences.
- Built backend APIs handling user, module, lesson, and progress management (10+ entities).
- Designed optimized MySQL schema, improving query performance by ~25%.
- Enabled real-time progress tracking and lesson completion workflows for students.
- Developed mentor dashboards for module management and performance tracking.
- Built admin panel to manage users and control module activation/deactivation.
- Delivered complete system including frontend, backend APIs, database scripts, and documentation.

Education

Shri Ram Institute of Technology, Jabalpur (RGPV)

Bachelor of Technology

2016 – 2020

Certifications

Capgemini Internal Courses: Node.js, React JS, JavaScript, AWS Amplify, AWS Lambda, API Gateway, GraphQL

Leadership

- Acting as Team Lead & Senior Developer in current project.
- Mentoring 2 junior developers.
- Driving technical decisions, code quality, and delivery timelines.
