SUMMARY

Frontend professional with over 2 years of experience in frontend engineering and web development, expert in React.js and SEO optimization. My key achievements include implementing SEO strategies that resulted in an 80% increase in visibility for Rightgun applications, and enhancing Core Web Vitals through performance optimizations. A Frontend Developer position is sought at your company, where my frontend engineering and web development skills can support your mission of delivering high-quality tech solutions to clients across specialized domains.

EXPERIENCE

React developer

iTouchVision

04/2024 - 02/2026 | Ahmedabad, India

Rightgun - Marketplace Platform (React.js & Next.js Web Application)

- Served as the lead frontend engineer for the Rightgun application, spearheading feature development, code improvements, and pre-deployment reviews.
- Architected and developed the Rightgun platform using Next.js with SSR, SSG, and middleware to enhance SEO and performance.
- Refactored and aligned existing React applications with updated project standards, significantly enhancing code quality and maintainability.
- Implemented advanced search and filtering with dynamic routing and optimized API calls for improved user experience and reduced redundancy.
- Established a secure image upload process to AWS S3 utilizing pre-signed URLs, AWS SDK, and serverless routes for comprehensive image management.
- Improved security and environment management by securing AWS and Google API keys, ensuring adherence to best practices.
- Mentored junior developers, instilling best practices and enhancing onboarding and project proficiency.

Front-end developer

Odan Infotech

03/2023 - 09/2023 | Surat, India

- Collaborated with the development team to implement responsive, mobile-first web designs
- Assisted in building interactive UI components using React.js and styling frameworks like Bootstrap and Tailwind CSS
- Practiced Git-based version control workflows using GitHub for feature branching and code reviews
- Practicing on a project "GParticle Studio" and "KnowCard", applying React concepts and UI principles learned during the internship to develop a fully functional demo application

SKILLS

Languages & Core

JavaScript (ES6+)

TypeScript

HTML5

CSS3

Frameworks & Libraries

React.js

React Hooks

React Router

Next.js (App Router)

Redux

Redux Toolkit

Context API

Material UI

Bootstrap

Tailwind CSS

Tools

AWS S3 bucket for Image upload

Git

GitHub

Postman

REST APIs

Google Firebase

JWT

Other

Responsive Web Design

Authentication

SEO Optimization

Server-Side Rendering (SSR)

Static Site Generation (SSG)

Middleware

Session Management

EDUCATION

Bachelor of Engineering Gujarat Technological University 08/2018 - 05/2021 India	CGPA 8.63 / 10.00
Diploma in Information Technology Gujarat Technological University 08/2015 - 05/2018 India	CGPA 8.40 / 10.00

CERTIFICATIONS

React - The Complete Guide (incl. React Router & Redux) Comprehensive online course covering React, React Router, and Redux	Web Designing Course: Beginner to Advanced Level In-depth course on web design principles from beginner to advanced levels
