SUMMARY

- Full Stack Developer with hands-on experience building scalable web applications using **React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL**
- Skilled in developing **reusable UI components, RESTful API integration, authentication, database management, and frontend performance optimization.**
- Experienced in building user-focused applications with modern frontend and backend technologies, including **responsive design, state management, and efficient API handling.**

EXPERIENCE

Geniee Services Solutions Pvt. Ltd.

Frontend Developer (React.js)

March 2026 – Present

- Developed and maintained responsive web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS with reusable components and optimized frontend performance.
- Implemented features including **service listing, booking flow, authentication, forms, validations, and dynamic UI updates.**
- Collaborated with backend developers to integrate APIs, debug UI issues, improve application performance, and deliver responsive designs across desktop and mobile devices.

KreupAI Technologies

Full Stack Developer Intern

Nov 2025 - March 2026

- Developed and maintained scalable full-stack modules for the Campus Management System using React.js, Node.js, and Express.js.
- Built dynamic, responsive user interfaces and integrated optimized RESTful APIs to ensure seamless client-server communication.
- Designed and managed **PostgreSQL** database schemas with efficient CRUD operations, data validation, and robust error handling for reliable and consistent performance.
- Implemented key modules including academic analytics, management, marketing, and catalog management, improving overall system functionality.
- Enhanced application performance through API optimization, asynchronous processing, and efficient state management.

PROJECTS

E-Commerce Website With AI Chatbot

- Built a fully dynamic e-commerce website using React.js, implementing modern UI/UX and adaptive design.
- Developed product listing, search, cart, and order management features with real-time updates.
- Integrated an AI-powered chatbot for product recommendations and customer assistance using API integration.
- Used RESTful APIs for backend communication and ensured seamless user experience across devices.
- Built admin dashboard for product and order management with dynamic content handling.

College Rating System

- Developed a Dynamic College Rating System using ReactJS that allows students to rate colleges based on facilities, academics, faculty, and campus life.
- Built a responsive Single Page Application (SPA) with dynamic UI updates, real-time data rendering, and improved user experience.
- Implemented state management using React Hooks (useState, useEffect) for handling user inputs, API data, and rating updates.
- Designed a responsive interface using Tailwind CSS and integrated REST APIs with Node.js, Express.js, and MongoDB for efficient rating storage and dynamic data management.

EDUCATION

Bangalore College of Engineering and Technology

B.E Computer Science Engineering

Visvesvaraya Technological University

CGPA : 7.5/10

Bangalore, Karnataka, India

December 2021–June 2025

SKILLS

- **Programming:** JavaScript (ES6+), C, SQL
- **Front-End Development:** React.js , Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Back-End Development:** Node.js, Express.js, RESTful APIs
- **Databases & Tools:** MongoDB, PostgreSQL, VS code, Git, Postman
- **Cloud:** AWS Services
