SUMMARY

I am a MERN Stack Developer skilled in building efficient, scalable, and user-friendly web applications. I specialize in creating responsive UIs, RESTful APIs, and full-stack solutions using React.js, Node.js, Express.js, and MongoDB. I am passionate about writing clean, optimized code and delivering seamless user experiences.

PROFESSIONAL EXPERIENCE

MERN Stack Developer Excelsior Technologies – Ahmedabad	December 2025 - Present
--	--------------------------------

- During my role at Excelsior Technologies, I work on live production projects and develop scalable backend services using Node.js and Express.js. I am currently contributing to a Physiotherapist Clinic Management System where I build REST APIs and manage MySQL databases for features such as doctor appointment booking, patient record management, and medical store operations.
- My responsibilities include designing database structures, developing secure APIs, and collaborating with frontend developers to integrate backend services smoothly. I focus on writing clean, optimized, and maintainable code to ensure reliable system performance.

MERN Stack Developer Intern Excelsior Technologies – Ahmedabad	June 2025 – November 2025
---	----------------------------------

- Completed a 6-month MERN Stack internship at Excelsior Technologies where I gained hands-on experience in full-stack web development. Worked on an e-commerce vegetable marketplace (EcoBazaar), developing backend APIs and managing MySQL databases for product and order management. Implemented Razorpay payment gateway integration and Google Authentication for secure user login, while also contributing to responsive UI development. This experience strengthened my skills in React.js, Node.js, Express.js, JavaScript, Tailwind CSS, and writing clean, maintainable code.

SKILLS

React.js | Express.js | JavaScript | RDBMS | MongoDB | Node.js | Tailwind css | CSS | MySQL
