WORK EXPERIENCE

Aveosoft Pvt Ltd

Node.js Developer

Jul 2025 - Jul 2026

- Developed REST APIs using Node.js, Express.js, and TypeScript with clean, type-safe code.
- Worked with PostgreSQL and TypeORM for database design and query management.
- Used Redis for caching to improve application performance.
- Integrated third-party services using Nango and Knex query builder.
- Explored AI tools (VAPI, Retell) for AI-driven call handling workflows.
- Learned to build scalable backend architecture with modular, maintainable code.
- Gained understanding of user authentication and secure API design practices.

Finlark Technologies

Jr Backend Developer Trainee

Nov 2023 - Mar 2024

- Gained experience with PHP, MySQL, and jQuery as a Junior Backend Developer at Finlark Technologies.
- Developed a strong foundation in backend development through practical application and collaboration with the team.

P.R. TECHNOHOLIC

Web Designer Intern

Jun 2022 - Jul 2022

- Completed comprehensive training in HTML, CSS, and JS during an internship at P.R. TECHNOHOLIC.
- Gained foundational skills in web design for creating and styling web pages effectively.

SKILLS

- **Front-end:** HTML, CSS, JavaScript, jQuery
- **Back-end:** Node.js, Express.js, TypeScript
- **Database:** PostgreSQL, TypeORM, Redis, MySQL
- **Tools & Technologies:** Git, REST APIs, API Integration, Knex, Nango, Chrome DevTools
- **AI Tools:** Claude Code, Antigravity, VAPI, Retell
- **Familiarity:** React.js, MongoDB
- **DSA:** Two Pointers, Hashing, Binary Search, Recursion, Linked List, Prefix Sum, Sliding Window, Backtracking, Stack, Binary Tree, 2D Arrays

PROJECTS

AI-Based Call Handling System (Live)

- Developed backend APIs using Node.js to handle business account setup and configuration.
- Integrated AI tools (VAPI, Retell) for building AI-driven call handling workflows.
- Used Knex query builder and Nango for third-party service integrations.
- Worked on calendar and communication tool integrations for automated call management.

Photography CRM Platform (Live)

- Built backend APIs using Node.js, Express.js, and TypeScript for managing photographers, projects, and bookings.
- Designed and managed PostgreSQL database schema using TypeORM for structured data handling.
- Implemented Redis caching to optimize performance and reduce database load.
- Worked on admin panel APIs for managing users, projects, and booking workflows.

Instagram Influencer Analytics Platform (Live)

- Built a Chrome extension to collect Instagram profile data from explorer, tags, and location-based posts.
- Developed a dashboard using React.js to display and manage collected profile details and analytics.
- Built backend APIs using Node.js, TypeScript, and Prisma ORM to store and manage profile data efficiently.
- Used OpenAI to structure profile data into a clean and organized format for better readability.

Tally Business Automation Platform (Live)

- Built a desktop agent (.exe) to collect Tally Prime data and sync it with a cloud dashboard.
- Developed features to track customer outstanding bills and view payment details in a centralized dashboard.
- Implemented scheduled and manual WhatsApp/email reminders for customers with pending payments.
- Developed using Node.js, TypeScript, Next.js, Sequelize, and Drizzle ORM.

EDUCATION

Silver Oak University

Diploma in Computer Engineering - 9.24

Aug 2020 - May 2023

Jay Ambe High School

S.S.C - 72

Jun 2019 - Mar 2020
