- Projects
- Red-Sand (Service Marketplace Platform):** Built backend managing service bookings, transactions, and professional data with automated job assignment matching customers by ratings and location. Created admin dashboard for real-time monitoring, dispute resolution, and performance analytics with secure payment processing.
  - RiseMind–AI-Powered Mental Wellness Platform:** Built admin panel and REST APIs using ReactJS, Node.js, and Express.js. Implemented authentication, payment integration, AI features, and analytics using PostgreSQL, OpenAI, Claude, and AWS S3.
  - MyVitalView–Remote Health Monitoring Platform:** Developed backend APIs and admin features for a real-time healthcare monitoring platform using smart medical devices and secure health data systems.
  - Hypefresh (Social Media, Messaging, Video & Group Calls):** Developed a social media web platform similar to Instagram, incorporating features like posts, likes, comments, and user interactions. Integrated the Openfire XMPP server to facilitate real-time messaging, supporting both one-on-one and group chats. Implemented WebRTC to enable seamless video calling and group conferencing. Designed a modern and interactive user interface using React.js and Tailwind CSS, ensuring an engaging user experience.

- Education
- MCA (Master of Computer Applications) - (Pursuing)(2024 - 2026)

  - University - Parul University

BCA(Bachelor of Computer Applications) (2024)

  - Academic Percentage - 78.13
  - University - Saurashtra University

- Experience
- Technource Pvt. Ltd. Full-Stack Software Engineer—5 Months (Jan 2026 - May 2026)

  - Building and maintaining full-stack applications using Next.js and NestJS.
  - Developing secure REST APIs, authentication systems, and admin dashboards
  - Working on AI-powered and healthcare platforms with PostgreSQL, cloud services, and third-party integrations
  - Integrating payment gateways, real-time systems, and cloud storage solutions

StellarMind.ai Full-Stack Developer—1.6 Years (July 2024 - Dec 2025)

  - Developed scalable web applications using React.js, Next.js, Node.js, and NestJS
  - Built REST APIs and worked with cloud deployments (AWS, Vercel)
  - Collaborated with cross-functional teams in agile environment
