PRIYANKA CHAKLASIYA

SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

Dynamic and results-driven Software Engineer with hands-on experience in full-stack web application development, content management systems, and e-commerce platforms. Skilled in architecting and delivering responsive websites, custom tailored web solutions, API integrations, and highly scalable applications using PHP, React.js, WordPress, and Shopify. Possesses robust problem-solving abilities focused on engineering optimized architectures, seamless user experiences, and strategic business-driven technical solutions.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, jQuery
Backend & DB	PHP, MySQL, REST API Integration
CMS & Platforms	WordPress, Shopify, Elementor, Advanced Custom Fields (ACF)
Tools & Utilities	Git, VS Code, cPanel, Postman

PROFESSIONAL EXPERIENCE

Narola Infotech

Sep 2025 – Present

Software Engineer

- Architect and maintain robust, scalable web applications utilizing modern technology stacks and industry best practices.
- Collaborate cross-functionally with UI/UX designers, engineering cohorts, and project managers to drive product delivery from conception to completion.
- Optimize application performance, enhance loading metrics, and champion continuous integration via meticulous testing frameworks and peer code reviews.
- Implement sophisticated features and refactor existing infrastructure to align cleanly with evolving business goals.

Web Developer

- Designed, engineered, and sustained bespoke enterprise WordPress deployments for diverse cross-industry clients.
- Built dynamic, highly fluid responsive user interfaces leveraging HTML5, CSS3, JavaScript, and custom PHP architectures.
- Authored and customized modular WordPress themes and functional plugins engineered to meet precise operational business logic.
- Integrated third-party ecosystem web services including secure payment gateways, complex CRM systems, and location-based Google Maps APIs.
- Executed targeted search engine optimization (SEO) techniques and core web vitals adjustments to maximize performance and discovery.

PROJECTS

Real Estate Platform

WordPress, PHP, ACF, Elementor

- Engineered a dynamic real estate listing application featuring comprehensive query filters, granular property metadata, and real-time Google Maps API integration. Developed streamlined admin panels with highly customized Advanced Custom Fields (ACF).

Brand Height Corporate Portal

WordPress, PHP, Elementor, Custom CSS

- Created a high-fidelity institutional website showcasing enterprise service suites and complex visual portfolio layouts with a focus on fluid, responsive layout rendering.

Ranking Guru – Digital Consultation Platform

WordPress, PHP, Elementor, SEO

- Designed and deployed a structural service provider application with structured scheduling logic, digital reservation workflows, and targeted SEO architecture.

Human Resource Management System (HRMS)

PHP, MySQL, jQuery, HTML/CSS

- Developed a secure web application for employee records, fine-grained access control, corporate role assignments, and automated report generation metrics.

Hotel Management Suite

HTML, CSS, Bootstrap, JavaScript, MySQL

- Engineered a localized booking manager incorporating visual room availability, customer validation, and secure transactional database queries.

Career Counselling Application

Java, XML, Android SDK

- Built a native Android client providing personalized academic pathing recommendations, academic recommendations, and interactive UI navigation flows.

EDUCATION

Master of Computer Applications (MCA) 2025

Government MCA College, Maninagar
CGPA: 9.03

Bachelor of Computer Applications (BCA) 2023

Grace College of Commerce
CGPA: 9.02

Higher Secondary Certificate (HSC) 2020

Ambaba Haripara Girls School
Score: 75%
