

SHRADDHA PATEL

Front End Developer (React.js)

s.j.patel.3110@gmail.com | 9173322877 | Gandhinagar, Gujarat

SUMMARY

Front-End Developer with 1.8 years of experience in building responsive, high-quality, and scalable web applications using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS. Strong foundation in HTML, CSS, UI development, component architecture, API integration, and state management using tools like Redux Toolkit and React Query. Currently focused on React.js and Next.js, while growing back-end skills with Node.js, Express, and MongoDB. A fast learner and dedicated developer passionate about creating clean, modern, and user-friendly interfaces with optimized performance and maintainable code.

WORK EXPERIENCE

Digipine infotech llp

Jun 2025 – Present

- Developed scalable and responsive web applications using React.js and TypeScript
- Managed API integration using React Query (useQuery, useMutation)
- Implemented real-time features and messaging logic using Firebase
- Collaborated with backend, design, and QA teams for seamless delivery
- Focused on performance optimization and clean frontend architecture

I-serve Systems Pvt Ltd.

Sep-2024 – Jun -2025

- Designed and developed responsive user interfaces using HTML, CSS, Bootstrap, and React.js
- Built dynamic UI features using JavaScript
- Created reusable and maintainable UI components
- Ensured mobile responsiveness and cross-browser compatibility

Tops Technologies Pvt Ltd.

May 2022 – Sep 2024

- Completed frontend training in HTML, CSS, JavaScript, React.js, and Redux
- Built responsive and interactive applications with modern UI practices
- Worked on live projects and improved practical development skills

EDUCATION

B.Sc

- Gujarat University Ahmedabad

HSC

- Gujarat University Gandhinagar

KEY SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap

State Management: Redux Toolkit, React Query

Backend (Basic): Node.js, Express.js, MongoDB, Nest.js

Other Tools: Git, Firebase, Photoshop (Basic), WordPress (Basic)

PROJECT

Admin Panel (Rings of Destiny)

- Built a scalable admin panel using React.js, TypeScript, and React Query
- Developed reusable and modular UI components with a custom theme system
- Optimized API integration and data fetching using React Query
- Improved performance and ensured a clean, consistent user experience
- Collaborated with backend, design, and QA teams

Chat Module (Taxleaf Chat)

- Developed a real-time chat system using React.js and Firebase
- Implemented WhatsApp 24-hour messaging rules and template-based messaging flow
- Managed real-time conversation updates and message synchronization
- Designed interactive and user-friendly chat UI

Handyman Service Management Platform

- Built a full-featured CRM platform using React.js and TypeScript
- Developed modules for estimates, job management, scheduling, invoices, and payments
- Implemented optimized API communication using React Query (useQuery, useMutation)
- Created scalable architecture using reusable components and custom hooks
- Designed UI themes based on project requirements (SOW)
